RELEVANT EXPERIENCE

TRACTMANAGER, INC.

Operations and Sales Advisor   January – November 2017

- Designed & developed reports used to monitor customer health that aggregated and analyzed data across 600+ individual databases utilizing T-SQL, SSRS and SSIS
- Created custom, compelling reports for client sale using T-SQL and Microsoft PowerBI
- Created complex reports for Sales and Leadership teams utilizing Salesforce data.
- Built a custom billing application utilizing Salesforce, T-SQL & SSRS that drastically improved quality, efficiency and security of monthly invoicing.

Operations Analyst   2013 – 2017

- Worked with the leadership team & end users from all areas to implement new technologies, including: Salesforce, ChikPea, Ambition, Definitive Healthcare and Desk.com
- Built and maintained integrations between new and legacy systems
- Completed daily database maintenance and Help Desk requests using Transact-SQL
- Built, delivered and maintained complex reports for clients and users in all areas of the organization, including Operations, Sales, Marketing and Finance
- Served as full-time Salesforce Administrator for 75+ end users, creating user manuals, performing training, building reports, making necessary customizations, and communicating with end users

Implementation Consultant   2012 – 2013

- Worked closely with client teams to develop implementation plans best suited to their needs
- Completed over 35 implementations of MediTract, PropertyTract, COIDS, VEF and TERMS modules, including the fastest implementations on record
- Served as the liaison between Sales, the client, Contract Specialists, Quality Control, Training, Customer Care, Billing and Account Management to ensure successful implementations and high client satisfaction
- Developed an Implementation manual, internal tools and client documents/presentations utilized by the entire department
- Achieved the highest sales rate within the department for add-on modules and services
